The following are the recommendations of the IQAC;

- 1) Education is already being provided in the three disciplines i.e. Humanities, Commerce and Computer Science. However, being the only Govt. College of the

district and as per the need and demand of the area, Courses in Science and Management (B.B.A) have been recommended by the Committee.

2) Keeping in mind the ease and betterment of students regarding their mobility to various institutes, the Committee is in favour of providing the facility of Academic Bank of Credit to the students.

3) The institution is in favour of Multiple Entry and Exit System as it is beneficial for the students.

4) Regarding NMQEF and Credit Framework for UG Courses, it has been realised that curriculum should be framed as per the need of the hour. The Credit framework may be decided as per the guidelines of the officiating authority and the Higher Education Department.

5) The Committee is in favour of Digital Learning but well-equipped smart class-rooms are required for the same. The College has inadequate facility in this regard.

6) Regard the suggestion of Industry Institute Collaboration, it has been realised that the curriculum should be industry oriented and it should be framed as per the industry requirements of the local area.

7) Academic Research and Internationalization of Higher Education need a lot of funding. Moreover, the institution has inadequate facility for the same.

8) As per the suggestion of Introducing Indian Knowledge System, only two systems - Ayurveda and Yoga have been considered relevant in the present era.

9) To promote Employability among students, skill development and industry oriented courses are required. However, the college contributes in this regard by organising employment fairs in collaboration with the Dist. Employment Office and the students are motivated and guided to get themselves registered with the Employment office.

8) Measures for increasing admissions during the session 2023-24 have been discussed. These measures include defining the Catchment area, acquiring the list of schools and Principals of the catchment area from the DDO, establishing Help Desk in the college, making announcements in Gurudwaras and putting pamphlets at public places, etc.

9) Institution undertakes to improve the infra-structure required for imparting online education.

10) Institution's Innovation Council (IIC) has been constituted. This Council will make efforts to suggest innovative ways of teaching-learning to enable students to learn in a better way.

At last, the Principal thanked all the members for their inclusive involvement and valuable suggestions.
