Facilities in the College Regarding Environment and Energy Conservation

1. There are LED lights and solar lights in the college. A personal for the solar system of 100 KW has been sent to the Department.
2. There is a dump for garbage in the college. Solid waste in the form of broken items of furniture and e-waste is sold in the form of scrap through a proper procedure. There is a rain water recharging / recycling system in the form of a pit in the college. There is a proper underground draining system for liquid waste.
3. There is a rain water harvesting bore well in the college. There is proper maintenance of water bodies (in the form of water tanks) and proper distribution system of water in the campus.

4. Green Campus initiatives

The institute has the following entitlements regarding green environment:

- Four and half Acres of forest Area where an Eco-Park with more than six thousand plants.
 - About two Acres of lawn area with plantation.
 - About two acres of forest area having about 400 Eucalyptuses.
 - A rain water harvesting bore well.
 - Two pits for the storage of rainwater in the Eco-Park.
 - Very less number of students make use of automobiles.
 - Bicycles and bettery powered vehicles are used by students.
 - There are pedestrian friendly pathways in the college.
 - Use of Plastic is banned.
 - There is landscaping in the college.
5. **Disabled Friendly Environment**
- There is ground floor ramp.
 - Though there is no lift in the college, but there are classrooms on the ground floor for the differently abled students.
 - There is proper arrangements of light in the college.
 - Differently abled persons are fully assisted by the teaching and non-teaching staff regarding any enquiry/information.
 - They are provided Scribe as per need.
 - There is provision of wheelchair for these students.
