POLICY DOCUMENTS ON ENERGY AND ENVIRONMENT

Policy Document on Energy Usage

The institute is aware of the need and importance of the use of energy efficient devices for the conservation of energy and environment. The institute focuses on the following issues regarding the same:

- Old energy appliances are being replaced with the appliances of modern technology. 40% of the old bulbs and tubes have been replaced with the LED lights. Halogen flood lights have also been replaced with LED lights.
- In future also, the focus will remain on the use of energy efficient/saving devices.
- The proposals for the same are being sent from time to time to the concerned Departments. A proposal for the solar system of 100 KW has already been sent to the PEDDA. A proposal regarding the same has been sent to PM USHA.
